

NEW

Glutton® One jet of water gets it clean!

H₂O Perfect®

Very simple to use, the 100% electric Glutton® H₂O Perfect® vacuums, cleans and disinfects your urban spaces.

Your cleaning staff easily remove all the dirt they come across in your town: dog mess, pigeon droppings, grease marks and other dirt stuck or encrusted onto the pavements, public benches, street bins, etc.

Your town is clean and disinfected

→ Equipped with an ergonomic water jet that is easy to carry in its integrated storage sheath, the **Glutton® H₂O Perfect®** delivers significant time and energy savings.

→ The **Glutton® H₂O Perfect®** picks up waste from the smallest recesses around town, and deep-cleans what's left. It's the perfect cleaning tool for your maintenance teams.

It collects all your urban waste

Benefits for you:

- 100% electric
- 0% CO₂
- Picks up all urban waste
- Disinfects all surfaces
- Helps to combat viruses, bacteria and fungi
- Effective cleaning with water jets
- 60 litres of on-board water
- Low-energy pump
- Removes soiling of all kinds
- Respects the environment

Integrated storage sheath

A revolutionary machine that is a match for anything!

Glutton® cleans

to help the city breathe

Glutton® H2O Perfect® gets it done

With its **medium-pressure cleaner and 60 litres of water**, the 100% ecological Glutton® H2O Perfect® street vacuum cleaner picks up waste from the smallest recesses around town:

- ✓ kerbs,
- ✓ pavements,
- ✓ streets,
- ✓ alleyways,
- ✓ town squares,
- ✓ tree grilles,
- ✓ public benches,
- ✓ playgrounds,
- ✓ street furniture.

On-board medium-pressure washer:

- + Water storage capacity 60 litres.
- + A pump/filter/pressure switch assembly.
- + An adjustable, ergonomic, medium-pressure water jet with hose.

After activating the pump on the dashboard, the user presses the trigger on the water jet and the pump starts automatically.

The pressure of the jet can be **adjusted on the handle** (focused or diffused jet).

Highly flexible

Glutton®
H2O Perfect®

BEFORE

AFTER

Easy and comfortable to use

Our patented, ultra-lightweight ergonomic control handle 3.0 guarantees comfortable use all day long.

Ergonomic

- + Innovative multi-position shape
- + Lightweight, perfectly balanced
- + Exceptional user comfort
- + Quickly adjusted without tools

Reliable

- + Suction power controlled wirelessly
- + Robust
- + Maintenance-free

One or two hands:

- + Comfort position
- + Intensive position
- + Ambidextrous

Wireless
technology

With carry strap for freedom of movement.

Dust filter:

The 24 m² dust filter is ISO 511 compliant, **trapping 99.96% of particles** over 0.5 microns. That means the exhaust air is cleaner than the air we breathe!

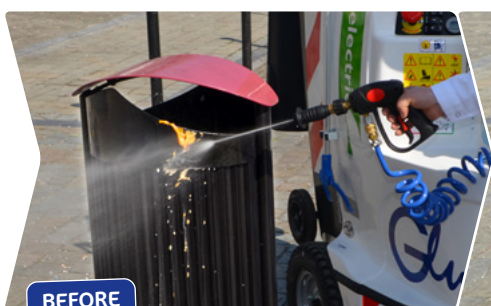

Anti-clogging grid:

The suction system has an **anti-clogging grid to prevent blockages** caused by plastic bags, dead leaves, etc.

Glutton® has selected a **cleaning agent for you with an attractive, long-lasting eucalyptus scent**. This product can be used in the tank of your Glutton® H2O Perfect® and also in your special dog waste spray (option). You can of course use your normal cleaning agent or disinfectant.

Glutton® H2O Perfect® Characteristics

Battery life

8 to 16 hours depending on use

Dimensions

Compact design:
W 795 x L 2060 x H 1700 mm.

⊕ 60 litres of
on-board water

⊕ Effective 24 m² dust filter

⊕ Peace and quiet for local residents

⊕ Self-propelled, ergonomic and highly manoeuvrable

Glutton®

Peace of Mind Contract

Make the best possible use of your Glutton® H2O Perfect®.

Leave everything to us!

Our technician visits once, twice or three times a year (depending on the contract type) to keep your Glutton® in peak condition.

Leave us to worry about all wearing parts for four years. Parts (from a defined list), labour and transportation are included. A full service on every visit.

Would you like to learn more about our maintenance contracts?

See our web site:
